The sanction for the following staff accorded in G.Os cited expired by 11-4-1956 A.N.

*	Supervisor	One
-	Lower Division Clerk ..	One
-	Peon.	One

I enclose a copy of Executive Engineer's (Salem Division) letter No. 491-SE, dated 24/2/1956, regarding the necessity for the continuance of the above posts beyond 11/4/1956 A.N. The Superintending Engineer, Coimbatore Circle, has also recommended the continuance of the above staff for the period of 3 months from 12-4-1956. As the disturbance of the above staff at this stage will dislocate work, I request that necessary sanction of Government to continue the above staff for a further period of three months from 12-4-56 may be examined and communicated to me.

I also request Government to ratify the action of the Superintending Engineer, in having continued the above staff in anticipation of sanction of Government beyond 11/4/1956 A.N.

The Special Pay sanctioned in G.O.Ms. No.392, Agri. (F.P.) Department, dated 11-11-1955, for the Supervisor and Peon may also caused to be continued for 3 months from 12-4-1956.

For Chief Engineer (Irrigation).

Government in their orders mentioned above were pleased to sanction the establishment of a Supervisor for a period of ten months from the date of appointment, a Lower Division Clerk upto 11-4-56 and a peon till 11-4-56 or till the need for a peon ceases whichever is earlier. The sanction of the Supervisor was utilised from 12-5-55 F.N. and therefore the sanction lapses on 11-4-56 A.N. It is considered that the sanction should be continued at least for a period of three months from 12-4-55 to complete the work and finalise the accounts. I furnish herewith the stage of the work at present and reasons for the necessity of the continuance of the establishment.

Anicut: All the work at the anicut except the rough stone dry packing for aprons and revetment and repairs grouting have been completed.

Cross masonry works: The masonry works that remain to be done is the head sluice. Two culvert works have been completed. Random rubble masonry for the acqueducts have also been completed. Pipes have to be fixed for the above after forming the embankment at the sites of acqueducts. The aqueduct at 2770 is in progress and has to be completed.

Channel: Excavation of channel in extension portion is nearing completion. The regrading of the existing channel is yet to be done. Earth excavation for forming banks for the channel where the cutting is less than F.S. depth in under progress.

From the above, it can be seen that 60% of the work also has been done and the balance is yet to be done. The details of work to be done are as below:-

1) Earth work	..	70 units.
2) Concrete.	..	10 "
3) Repair grouting.	..	10 "
4) Rough stone dry packing		100 units
5) Fixing pipes.	..	128 Rft.
6) R.R. masonry.	..	8 units.
7) Pointing.	..	12 units.

The above work cannot be attended to by the regular Section Officer at Kollegal. Further the site of the work is in an out of the way place (i.e.) at
